

Assignment 3 - Detailed Feedback Report

Student ID: 63719

Assessment Overview

Your submission demonstrates a good foundation with significant room for growth. You have addressed several core requirements, and there is significant potential to elevate your work. The areas identified below represent opportunities for substantial improvement that will strengthen your software engineering practices and LLM application development skills.

Areas of Excellence

Your submission demonstrates particular strength in the following areas:

Research Analysis

- Found 1 research document(s)
- Research documentation includes visualizations
- Research documentation provides analysis methodology

Testing Quality

- Found 2 test file(s)
- Good test coverage with 2 test file(s)
- Excellent test count: 42 test functions

Config Security

- No hardcoded secrets found in production code
- .env.example file found

- .gitignore file found with .env properly ignored

Code Documentation

- README.md found (20422 bytes)
- Installation instructions found in README
- Usage examples found in README

Areas for Improvement and Development

The following areas require focused attention and development. Addressing these will significantly strengthen your software engineering practices and overall project quality:

Extensibility

Current Status: Excellent modular structure (avg 97 lines/file)

Recommended Actions:

- Create plugin/extension system for modularity
- Define interfaces/APIs for extensibility
- Document extension/customization approach

Quality Standards

Current Status: Linting configured: pyproject.toml

Recommended Actions:

- Set up CI/CD pipeline (GitHub Actions, GitLab CI, etc.)
- Create code style guide or CONTRIBUTING.md
- Set up pre-commit hooks for automatic quality checks
- Configure quality assurance tools

Costs Pricing

Current Status: Limited cost documentation (2 mentions)

Recommended Actions:

- Create cost analysis document (e.g., COSTS.md, budget.xlsx)
- Add detailed cost analysis
- Create budget tracking system/document

Version Management

Current Status: Limited commit history: 1 commits

Recommended Actions:

- Make more commits (target: >10)
- Create PROMPT_BOOK.md to document AI interactions

Priority Action Items

High Priority Enhancements:

These areas would significantly strengthen your submission and should be addressed after the immediate focus items:

- Improve Extensibility
- Improve Quality Standards
- Improve Costs Pricing
- Improve Version Management

Conclusion

Your submission shows good potential and a developing understanding of software engineering principles. The areas identified above represent clear opportunities for growth. Focus on the immediate priority items first, then systematically work through the other recommendations. With dedicated effort on these areas, you can significantly strengthen your skills and project quality.

Assessment Date: 2025-12-03

This report provides developmental feedback to support your learning and growth.
