

# Assignment 2 - Detailed Feedback Report

Student ID: 74309

## Assessment Overview

Your submission demonstrates a good foundation with significant room for growth. You have addressed several core requirements, and there is significant potential to elevate your work. The areas identified below represent opportunities for substantial improvement that will strengthen your software engineering practices and LLM application development skills.

## Areas of Excellence

Your submission demonstrates particular strength in the following areas:

### Ui Ux

- Found 22 image(s)/screenshot(s)
- Excellent visual documentation with 5+ images
- UI documentation found: DESIGN.md

### Project Planning

- PRD.md found
- Problem Statement found in PRD
- Functional Requirements found in PRD

### Research Analysis

- Found 1 Jupyter notebook(s) and 3 research document(s)
- Multiple research artifacts for comprehensive analysis

- Visualizations found in 1 notebook(s)

## Testing Quality

- Found 5 test file(s)
- Excellent test coverage with 5 test files
- Excellent test count: 107 test functions

## Code Documentation

- README.md found (14233 bytes)
- Installation instructions found in README
- Usage examples found in README

## Areas for Improvement and Development

The following areas require focused attention and development. Addressing these will significantly strengthen your software engineering practices and overall project quality:

### Quality Standards

Current Status: Linting configured: pyproject.toml

Recommended Actions:

- Set up CI/CD pipeline (GitHub Actions, GitLab CI, etc.)
- Create code style guide or CONTRIBUTING.md
- Set up pre-commit hooks for automatic quality checks
- Configure quality assurance tools

### Extensibility

Current Status: Large files detected (avg 344 lines/file)

#### Recommended Actions:

- Create plugin/extension system for modularity
- Refactor into modular structure with smaller files
- Define interfaces/APIs for extensibility
- Document extension/customization approach

## Priority Action Items

### Immediate Focus Areas:

These items require your immediate attention as they represent critical gaps in the current submission:

- Address Extensibility

### High Priority Enhancements:

These areas would significantly strengthen your submission and should be addressed after the immediate focus items:

- Improve Quality Standards

## Conclusion

Your submission shows good potential and a developing understanding of software engineering principles. The areas identified above represent clear opportunities for growth. Focus on the immediate priority items first, then systematically work through the other recommendations. With dedicated effort on these areas, you can significantly strengthen your skills and project quality.

Assessment Date: 2025-12-04

This report provides developmental feedback to support your learning and growth.
