FINAL GRADE	44%
STATUS	NEEDS IMPROVEMENT

Assessment Feedback

This submission requires significant improvement. You need to focus on fundamental software engineering practices including planning, documentation, testing, and version control.

Strengths

- Good documentation (comprehensive README, 100% docstring coverage)
- Multiple UI implementations (3 different interfaces)
- Clean PDR document

Required Improvements

- CRITICAL: Add .gitignore file (security requirement)
- CRITICAL: Add research analysis section (parameter investigation required - 0/10 points lost)
- CRITICAL: Improve git workflow (only 2 commits - version control requirement)
- Add comprehensive unit tests (more coverage needed)
- Implement cost tracking and analysis
- Add prompt documentation
- Add CI/CD pipeline
- Improve code modularity (files too large)

Please review the requirements and resubmit. Please review course materials and requirements carefully before your next submission.
