# Assessment Feedback

You met the basic requirements. However, you need to focus on improving your implementation, documentation, and testing practices to meet professional standards.

## Strengths

- Excellent testing infrastructure (104 tests)
- Comprehensive README documentation
- Perfect security (no hardcoded secrets)
- Professional Angular architecture
- Good git practices (19 meaningful commits)

## Required Improvements

- Add research analysis notebooks and visualizations
- Create prompt documentation (PROMPTS.md or similar)
- Implement cost tracking and analysis
- Add quality tools (linting, CI/CD, pre-commit hooks)
- Include architecture documentation

Work on these areas for improvement. Meeting these requirements will significantly improve your grade and professional readiness.
