# Assessment Feedback

You met the basic requirements. However, you need to focus on improving your implementation, documentation, and testing practices to meet professional standards.

## Strengths

- Perfect security posture - zero hardcoded secrets found
- Production-grade PRD with 36KB comprehensive documentation
- Excellent testing suite with 45 tests (unit + E2E)
- Outstanding README with installation, API docs, and troubleshooting
- Professional UI/UX with 6 high-quality screenshots
- Clean modular architecture (84.5 lines/file average)
- Modern tech stack (Next.js 15, React 18, TypeScript 5.6)

## Required Improvements

- CRITICAL: Use version control throughout development (only 1 commit found)
- Add JSDoc/TSDoc comments - current coverage only 7.7%
- Implement CI/CD pipeline with GitHub Actions
- Add comprehensive cost analysis and pricing documentation
- Create research artifacts documenting model evaluation and experimentation

Work on these areas for improvement. Meeting these requirements will significantly improve your grade and professional readiness.
